SUMMARY

I'm a Senior Creative Technologist with 9 years turning ambitious technical ideas into things real people can walk up to and play with. I sit at the intersection of generative AI, computer vision, and interactive experience design, and I'm one of the few people who can build the thing, demo it live in front of any audience, and explain why it matters to the business. If you need someone who can take a creative brief and ship a working experience (not a mockup, not a prototype, a thing that runs), that's what I do.

SKILLS

Languages: Python, JavaScript, TypeScript
Frameworks / Libraries: React, Three.js, Matter.js, Pixi.js, WebGL, GLSL Shaders
AI / ML: Generative AI, Stable Diffusion, ComfyUI, LoRA Training, Claude API, OpenAI API, Prompt Engineering, n8n
Creative Tools: Adobe Suite, TouchDesigner, Blender
Hardware: Arduino, Raspberry Pi, depth cameras, LIDAR, computer vision sensors
AV & Installation: Projectors, LED walls, sound systems, DMX/ArtNet, spatial mapping, electrical systems & power distribution, AV integration
Backend & DevOps: REST APIs, cloud services, Git/GitHub, Windows scripting/tooling
Specialties: Computer Vision (OpenCV, ArUco), Real-time Web Graphics, AR/3D Interaction, Interactive Installations, Kiosk and Wall-Projection Deployment, Projection Mapping, Live Technical Demos, Technical Storytelling

RECOGNITION

- **Guinness World Record** -- World's Largest Light Drawing by UAV
- **TEDx Colorado Springs (2019)** -- "Light Painting: Photoshop in Real Life," 42K+ views
- **Insta360 Young Gun Award**
- Featured in BBC, The Daily Mail, The Telegraph, Fox News, Popular Mechanics, Upworthy, and The Olympics

EMPLOYMENT

Adobe (Consultant)	Remote
<i>Creative AI Consultant</i>	<i>Oct 2023 – Present</i>
• Advocated directly to Adobe product leads for a skill-building AI assistant in Photoshop -- one that teaches users how to accomplish what they're trying to do rather than just generating output for them. The feature shipped as Adobe's AI Assistant. • Attended Adobe MAX and internal creative summits alongside other invited creators, providing ongoing feedback on AI tool direction across Photoshop and the broader creative suite. • Produced and directed an AI video campaign showcasing Adobe's generative tools across social and marketing channels, reaching 4M+ views and driving adoption of AI features among professional photographers and designers.	
Light and Lense LLC	Colorado Springs, CO
<i>Freelance Creative Technologist</i>	<i>Jun 2018 – Present</i>
• Designed and built Gizmo Factory, a physics installation using computer vision (ArUco marker detection) to turn printed physical props into real-time game pieces. Built in vanilla JS and Matter.js with 25+ tuned physics parameters and an open-source level editor. Deployed and supported across 6 live installations at festivals and public venues, including on-site setup, hardware troubleshooting, and direct client-facing support. • Engineered Chromotion, a coloring-to-animation kiosk where participants color a printed creature template, scan it, and see their colors mapped onto a fully animated character in real time. Custom computer vision stack (flatbed scan processing, part segmentation, ArUco detection) feeds a Pixi.js renderer. • Built bespoke generative models and LoRAs for haircare brand October Stockholm, replacing traditional photo shoots with an AI-driven visual workflow and cutting production costs by approximately 80%. Turnaround compressed from days to hours, with consistent output across variable hair lengths and model poses. • Designed and delivered live AI technical and photography workshops at WPPI (2022, 2023, 2024, 2025) and ImagingUSA (2023), Peculiar Collective (2024, 2025) teaching generative AI workflows to professional photographers. 300+ attendees across	

live sessions.

- 95M+ views and 4.4M likes across AI visual content. Reached audiences through platforms including YouTube (202K+ tutorial views on Stable Diffusion and Warp Fusion workflows).

Lander Media

Colorado Springs, CO

Media Creator

Jul 2021 – Oct 2023

- Produced integrated photo, video, and copy campaigns for local businesses and city initiatives under tight production timelines.
- Directed multi-format content production across web, social, and print, coordinating with design and editing teams to maintain brand cohesion across deliverables.

Myers Sewing

Colorado Springs, CO

Digital Marketing Director

Nov 2020 – Mar 2023

- Led organic marketing strategy, content direction, and visual production for an established craft retail brand.
- Grew digital presence and community engagement through educational content and story-driven campaigns aligned with the audience's passion for craft and design.

Frequent Flyers

Colorado Springs, CO

Website Developer

Jun 2018 – Mar 2020

- Redesigned and modernized digital platforms for travel creators, crafting blog experiences optimized for storytelling and mobile usability.
- Built custom features and plugins to enhance interactivity, media integration, and brand cohesion across client portfolios.

Wolf and Key Marketing

Colorado Springs, CO

Senior Web Designer and Content Creator

Dec 2016 – Mar 2019

- Designed and built marketing websites and conversion-focused landing pages for multiple business clients alongside marketing strategists and account leads.
- Led on-page SEO strategy and produced integrated photo and video content for cohesive brand storytelling across digital channels.

EDUCATION

Associate's in Business

Pikes Peak Community College • Colorado Springs, CO • May 2011
