KEY ACHIEVEMENTS

- **AI Hair Workflow (Extensions & Color):** Developed an automated system that captures product color from photos and maps it onto AI models with variable lengths (20–60 cm), poses. **Cut manual photo-shoot costs by ~80%** and reduced turnaround time from days to hours, enabling full SKU-line automation.
- **Autonomous Email & FAQ Assistant:** Engineered an n8n + vector-DB workflow that reads inbound emails, answers recurring questions, and forwards edge cases — Reduced manual email handling by 70–80%, saving an average of **5–10 staff hours per week** through automated client communication.
- **AR Experience Photo Gallery:** Designed and custom-coded a browser-based augmented-reality gallery that projects AI-generated videos into physical space, blending web tech and 3D interaction.
- **Creative Education Leadership:** Taught at the largest U.S. photography conferences and in France, leading seminars and workshops on generative AI and creative photography; previously taught performing arts across 12 countries, building a foundation in creative direction and performance.
- **Recognition & Impact:** **90M + views / 4.4M likes** across AI visuals; TEDx speaker; Guinness World Record holder; features in BBC, Fox, Daily Mail, Upworthy and The Olympics.
